## Complete Collaboration Solution for Small Meeting Spaces

Solstice Conference paired with the Logitech MeetUp and the LG UH5E Series display combines the reach of video conferencing with the power of rich, multi-participant content sharing to enhance the collaboration experience between onsite and remote users.

This room solution delivers the convenience of a traditional room system with the flexibility to use any conferencing service installed on the meeting host's laptop.

### Solstice Conference

- Multi-participant content sharing from any device
- Agnostic support for all major conferencing services
- Easy, one-step start from the meeting host's laptop
- Wirelessly connects the room system to the conference

### Logitech MeetUp

- Compact all-in-one ConferenceCam with integrated audio
- Ultra HD video with advanced zoom and life-like video quality
- Super-wide field of view and auto-framing of participants in the room
- Custom-tuned speaker refined for huddle room acoustics
- Plug-and-play USB connectivity

### LG UH5E Series Display

- Superb Ultra HD picture quality
- Sleek and practical design
- WebOS smart platform

### Meeting Host Laptop

- Requires Windows or macOS laptops to host meetings
- Supports Zoom, Teams, and most other conferencing apps

## System Components

### Mersive Solstice

Solstice Pod Gen3  
 HDMI cable  
 Power supply

### Logitech MeetUp

MeetUp ConferenceCam  
 Remote control  
 USB cable: 16 ft (5 m)  
 Power supply  
 Wall mount and hardware

### LG UH5E Series Display

Remote control  
 Power cord

### Additional Requirements

Meeting host laptop (Windows or macOS)  
 Web conferencing service (Teams, Zoom, Webex, etc.)

## Installation Instructions

1. Place or mount the Logitech MeetUp, then connect to power.
2. Attach the Solstice Pod to power and the local Ethernet and/or wireless network (PoE+ supported).
3. Connect the MeetUp to the Solstice Pod via USB.
4. Connect the Pod to the LG display via HDMI (outer HDMI 1 port recommended). An optional second display can also be connected to the Pod.
5. As a note, Mersive recommends configuring the Solstice Pod's basic settings, such as updating the display name to match the room name.

For conferencing support, meeting hosts simply install the Solstice app on their laptop device along with their web conferencing application of choice. As a note, the host laptop must be connected to the same network as the Pod.

## Technical Specifications

### Solstice Pod Gen3

Part #: SP-8000-E1

<b>Supported user devices</b>	Windows, macOS, iOS, Android, Chromebook, Linux
<b>Number of users</b>	Unlimited
<b>Number of content posts</b>	Unlimited
<b>Solstice app features</b>	Conferencing Support (meeting hosts only, Windows and macOS supported) Share desktop, application window, image file, video file Intuitive drag-and-drop layout control Wireless annotation via smartphone

## Technical Specifications

### LG UH5E Series Display

Part #: 75UH5E

Screen size	75"; also available in 65" and 86"
Panel technology	IPS
Brightness (Typ.,cd/m²)	500 nit
Life Time (Typ.)	50,000 Hrs
Contrast ratio	1,200 : 1
Viewing angle	178 x 178
Response time	6 ms (G to G)
Surface treatment	Haze 3%
Orientation	Portrait & landscape
Resolution	3840x2160 (UHD)
Power consumption Typ. / Max.	180 W / 260 W
Smart energy saving	126 W
Key features	Internal memory (8GB) Built-in WiFi Temperature sensor Auto brightness sensor Current sensor Embedded CMS Control and monitoring USB plug-and-play Multi-screen Smart energy saving
