

## Complete Collaboration Solution for Midsize Meeting Spaces

Solstice Conference paired with the Logitech Rally combines the reach of video conferencing with the power of rich, multi-participant content sharing to enhance the collaboration experience between onsite and remote users.

This room solution delivers the convenience of a traditional room system with the flexibility to use any conferencing service installed on the meeting host's laptop.

### Solstice Conference

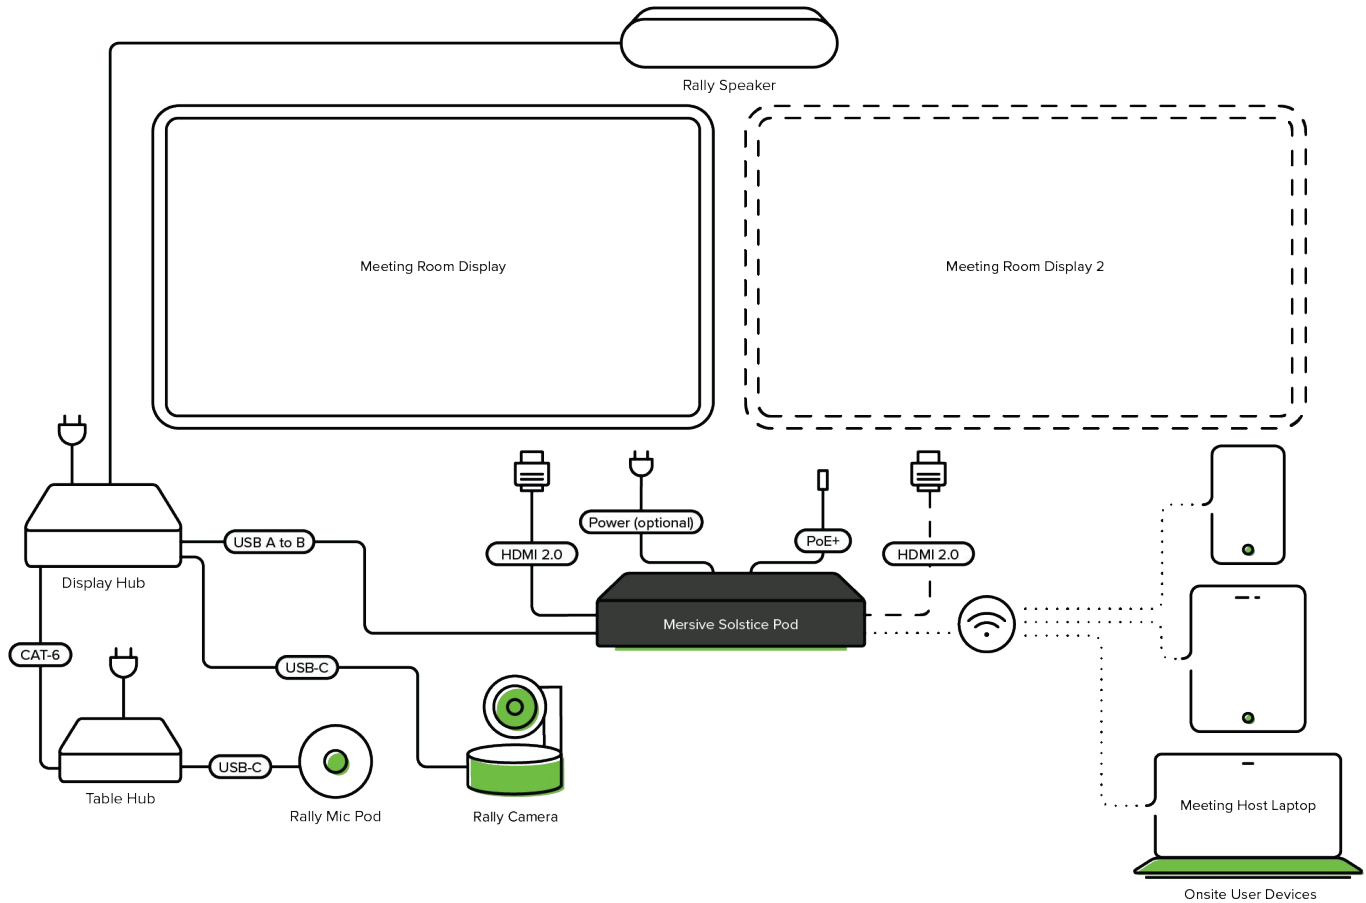

- Multi-participant content sharing from any device
- Agnostic support for all major conferencing services
- Easy, one-step start from the meeting host's laptop
- Wirelessly connects the Logitech Rally system to the conference
- Enterprise-grade security and fully IT-compliant
- Cloud-based deployment management and analytics

### Logitech Rally

- Ultra-HD ConferenceCam auto-frames participants in the room
- Studio-quality video optimizes light balance and facial emphasis
- Front-of-room speaker provides rich, life-like sound
- Intelligent tabletop mic pod zeroes in on active speakers while reducing background noise
- For larger room configurations, additional mic pods can be added

### Meeting Host Laptop

- Requires Windows or macOS laptops to host meetings
- Supports Zoom, Teams, and most other conferencing apps

## System Components

### Solstice Conference

Solstice Pod Gen3

HDMI cable

Power supply

### Logitech Rally

Rally Camera

Rally Speaker (x1)

Rally Mic Pod (x1)

Rally Display Hub

Rally Table Hub

Remote Control

USB Type C to USB Type C

USB Type A to USB Type B

CAT6A Ethernet cable

HDMI Type A (x2)

A/C cables (x2)

Mini XLR

Power supplies (x2)

### Additional Requirements

Meeting host laptop

(Windows or macOS)

Web conferencing service

(Teams, Zoom, etc.)

## Installation Instructions

1. Mount the Logitech Rally Display Hub and Table Hub, and connect the two to power.
2. Connect the Display Hub to the Table Hub via the CAT-6 Ethernet cable.
3. Connect the Display Hub to the Solstice Pod via USB A to B.
4. Attach the Solstice Pod to power and the local Ethernet and/or wireless network (PoE+ supported).
5. Connect the Pod to the display monitor via HDMI (outer HDMI 1 port recommended). An optional second display monitor can also be connected to the Pod.
6. Connect the Rally Camera to the Display Hub via USB-C.
7. Connect the Rally Mic Pod to the Table Hub via USB-C.
8. Connect the Rally Speaker to the Display Hub via mini XLR.
9. As a note, Mersive recommends configuring the Solstice Pod's basic settings, such as updating the display name to match the room name.

For conferencing support, meeting hosts simply install the Solstice app on their laptop device along with their web conferencing application of choice. As a note, the host laptop must be connected to the same network as the Pod.

## Technical Specifications

### Solstice Pod Gen3

Part #: SP-8000-E1

<b>Supported user devices</b>	Windows, macOS, iOS, Android, Chromebook, Linux
<b>Number of users</b>	Unlimited
<b>Number of content posts</b>	Unlimited
